

WIRE & PLASTIC
MACHINERY CORP.

WIRE, CABLE, AND OPTICAL FIBER MANUFACTURING MACHINERY

INVENTORY HIGHLIGHTS

wireandplastic.com

LEADER IN PRE-OWNED EQUIPMENT FOR THE WIRE, CABLE, & OPTICAL FIBER INDUSTRY

Wire & Plastic Machinery is the world's largest reseller of high quality wire, cable, and optical fiber manufacturing equipment. With over 3 million square feet of warehouse space and 30,000 items in stock, Wire & Plastic Machinery is able to provide rapid solutions for most equipment requirements. An experienced sales staff and skilled engineers with a broad knowledge base has made us the pre-eminent supplier to the industry and in the ideal position to satisfy all bare wire, insulated, electrical, and optical fiber equipment needs.

Products & Services:

"As Is" Equipment

With the largest inventory in the world, Wire & Plastic Machinery is ideally suited for providing immediate delivery from one of our 8 North American facilities.

Test Run & Inspected

Equipment is electrically connected and test run to ensure functionality and completeness. Missing or defective components are then replaced to achieve operability. Equipment can also be offered cleaned and painted to match color specifications.

Rebuilt Equipment

Resident engineering staff include design, electrical, and mechanical engineers with over 100 years of combined experience. Our rebuilding teams are able to recondition equipment from steam cleaning, painting, replacing worn components, mechanically upgrading and installing the newest electronics. Rebuilt machinery comes with a full warranty that is comparable to coverage offered by new equipment manufacturers. Engineers are also available for worldwide commissioning.

Custom Solutions

Engineers have developed customized solutions to comply within critical budgets and time frames when existing machinery is not available. Clients have specified product parameters and specialized designs and Wire & Plastic Machinery has re-engineered stocked items to meet customer criteria.

Equipment Purchasing

As the largest buyer of pre-owned machinery in the industry, Wire & Plastic Machinery offers the easiest solution to purchase individual components to complete lines. Immediate cash purchase or credit toward our inventory provides sellers with flexibility, competitive options.

MACHINERY FOR ALL MAJOR CATEGORIES

OPTICAL FIBER • ELECTRICAL • LAN & DATA • ENERGY • BARE WIRE

TABLE OF CONTENTS

Bare Wire

3 Wire Drawing Machines

Multi Wire, Rod Breakdown

4 Wire Drawing & Stranding Machines

Intermediate, Dual Spoolers, Coilers, Stranders (Rigid / Tubular)

5 Bunching & Cabling Machines

Double Twist & Single Twist Bunchers

Electrical & Insulated Cable

6 Cabling & Braiding Machines

Back Twist, Planetary, Bow Twisters, Braiders

7 Extruders

Extruders (Hi Temp / Plastic / Rubber), Extrusion Lines

8 Rotating Equipment

Drum Twisters, Rotating Payoffs, Caterpullers & Take-ups

9 Pay offs, Take-Ups & Rewinders

Dual Take Ups, Payoffs, Take-Ups, Rewinders

Fiber Optic

10 Fiber Optic Equipment

Coloring Lines, SZ Stranders, Ribbon Stranders, Loose Tube Buffer/Jacketing Lines, Fiber Planetary Cablers

11 Miscellaneous Machines

Interlock Armoring Lines, Packaging Lines, Concentric Single & Dual Tapers, Caterpullers, Vertical Accumulators & PTFE Extruder

MISSION STATEMENT

SUPPLY ON DEMAND

MARKETS SERVED

Central and South America • North America and Mexico • Europe
Asia • Australia and New Zealand • Middle East • Africa

Wire & Plastic Machinery Corporation suministra equipos para la industria de alambres y cables, proveyendo maquinarias de alta calidad y reciente fabricación, incluyendo líneas de desbaste, refilación, extrusión, trenzado, encintado, enrollado, encaquetado, todo tipo de reunido y cableado, (máquinas rígidas, tubulares, planetarias) y líneas para la fabricación de cables de fibra óptica.

Los equipos pueden suministrarse tal como están, con revisión operacional o completamente reconstruidos. Seleccionando unidades de nuestro extenso inventario es posible configurar una línea completa, adecuada a las necesidades específicas de nuestros clientes. Los equipos reconstruidos se entregan con sistemas eléctricos de última tecnología y son totalmente garantizados.

Contamos con ingenieros y técnicos altamente calificados y experimentados en la industria particular de alambres y cables.

Damos servicio técnico de arranque en todas partes del mundo.

Wire & Plastic Machinery Corporation (线缆&塑料设备有限公司)服务于有色金属电线&电缆工业,提供用于“大拉、挤出、拉丝、束绞(管绞式&笼绞式)、绝缘、成缆(行星式绞缆设备)、编织、包带、收卷、护套、复绕、光纤被覆&成缆”生产的各类高质量,新型号设备。

可以按“现状”、按运行检验或完全改造条件提供设备。我们能够从价值上千万美元的设备资源中,选配符合客户特定要求的设备系统。所有完全改造的设备都具备最新的电控系统,以满足客户的电控要求并附有全面的质量保证。

我们拥有技术高超而富有经验的工程师、电气专家和机械专家。我们的设备改造团队,具有在电线电缆领域广泛的技术经验基础。

提供世界范围的设备调试服务。

Wire & Plastic Machinery Corporation est fournisseur de machines pour le travail des métaux non-ferreux pour l'industrie du fil et du câble. Il s'agit de machines récentes telles que tréfileuses ébaucheuses, extrudeuses, tréfileuses, toronneuses, câbleuses (avec ou sans détorsion), tresseuses, rubaneuses, couronneuses, gaineuses, lignes de relevage, ligne de tubage et câbleuses pour fibres optiques.

Ces équipements peuvent être proposés dans un état « Comme Neuf », révisés ou complètement conditionnés. Nous pouvons sélectionner de notre stock d'une valeur de plusieurs millions de Dollars une machine adaptée à vos besoins spécifiques. Toutes les machines conditionnées sont équipées de matériel électrique neuf avec garantie complète.

Notre équipe comprend des ingénieurs, des électriciens et des mécaniciens hautement qualifiés et expérimentés.

Mise en service du matériel fourni partout dans le monde.

Wire & Plastic Machinery Corporation работает в области металлических проволок и кабельной промышленности и осуществляет поставку высококачественного оборудования для Волочения, Экструзии, Скрутки жил (фонарной и сигарной), Изолирования, Скрутки сердечников (драм твистеры и планетарные машины), Оплетки, Лентообмотки, Ошлангования, Перемотки, Производства оптических кабелей.

Оборудование может поставляться в «стандартном» состоянии с проверкой функциональности или полностью модернизированным. Мы можем подобрать из наших огромных складов оборудование отвечающее Вашим индивидуальным требованиям. Все модернизированное оборудование включает полную замену электрооборудования в соответствии с Вашими требованиями с последующим предоставлением полной гарантии на поставляемое оборудование.

Наш высококвалифицированный персонал, включая инженеров механиков и электриков к Вашим услугам.
